In Kovncico, for example, two peasants, "artin Polerno and Jocob Czech, were sent nome after their eyes and been gouged out by Commissar Tarko of the Parcevo (near Bolgrade) secret police (OTMA). Bolerno and Czech were forced to mander in the streets of Kovacico, telling their neighborn that they had received punishment for attempting to hide grain from the Government. Czech, after refusing to admit the justice of his punishment, had his tongue cut off by the secret police.

Comment Mercacica in the Vojvodna is considered the breadbasket of Europe. The pessants and settlers are strongly against the regime. The Covernment is recruiting peasants for transfer to the former German villages.

5. According to official data, the Tito treasury has occuralated the following revenue:

Amount (In Rillions of Pinars)	Source of Revenue			
5೧೦	Confiscated industrial proporty			
40	Ray materials found in Stores and warehouses			
40	Sale of UNNRA goods			
4 P.	Tax levies			
7.6	Profits from conversion of occupational currency			

Comment Approximately 500 million occupational line were issued without backing. The Ljubljana Bank issued the unbacked Julian March currency after an agreement with the Military Government, and with the secret approval of Minister of Finance Tujo. In. Through strict regulation of exchange, the Covernment manages to seize considerable property. There is, however, considerable hoarding of gold by individual citizens.
